Disclaimer: This was not created for commercial use. It was created for home or classroom use.

STEM Web Challenge One- Building a Web

You need to create a web with dental floss and a hanger.

Your web needs to be big enough and strong enough to hold rocks.

Created by Deirdre Smith of JDaniel4smom.com

STEM Web Challenge One - Testing Web Strength

You will need to place your spider stones on the hanger web one at a time.

You will need to decide if your web was strong enough to hold all of your rocks.

Created by Deirdre Smith of JDaniel4smom.com

STEM Web Challenge One - Making Stone Spiders

You will need to decorate your stones to look like spiders.

Created by Deirdre Smith of JDaniel4smom.com

STEM Web Challenge One- Repairing the Web

You will need to use dental floss to repair any tears or breaks that have occurred in your web during the stone test.

Then repeat the web strength test.
