# How to Use the Challenge Cards

This set of cards explores a number of concepts. They invite children to sort pieces of candy by attributes that they have in common and are different.

You can explore all the cards if you like. This activity would probably hold your children attention longer if they only work on a few cards at a time.

While this is a fun way to compare and explore the candy your children have collected in their Halloween bag. It is also a way to explore several learning concepts like size, shape, color, and parts to whole.

If you don't go trick or treating for candy, you can put together a bag of candy for your children.

Some children will require a special bag of candy that includes items they are not allergic to. If your children have certain types of candy they need to avoid, you will want to avoid the challenge cards that focus on candy that won't be in their bags.

Thank you for this downloading this set. I hope your children enjoy this JDaniel4's Mom resource.
