How to Use the Challenge Cards

This set of cards explores a number of concepts. They invite children to build specific objects and shapes.

You can explore all the cards if you like. This activity would probably hold your children attention longer if they only work on a few cards at a time.

If you don't go trick or treating for candy, you can put together a bag of candy for your children to use for this activity.

Some children will require a special bag of candy that includes items they are not allergic to. If your children have certain types of candy they need to avoid, you will want to make the bag contains only that type of candy.

Thank you for this downloading this set. I hope your children enjoy this JDaniel4's Mom resource.
