How to Use This Activity Set

- You may want to go over the snowman numbers displayed on the I Spy pages. You can do that by going over the objects displayed in the chart at the top of the I Spy page.
- Then you will want to have your children figure out how many of each object there is displayed on the page.
- Your children can write the number of times they found each item with a number or a tally mark. There is one sheet for each way in the set.
- If you think your children will have trouble remembering that they have already counted an item you can have them color the object as they count or put an x on them.

Thank you for this downloading this set.
I hope your children enjoy this JDaniel4's Mom resource.
