The Thankfulness Turkey Activity

Getting the Feathers Ready

- If you are using the blank feathers, have your children help you brainstorm areas of their life they are thankful or have them choose ten areas listed on the thankful for chart. Then write them on the feathers.
- If you are using the labeled feathers, there isn't anything you need to do.

Talking About and Placing the Feathers

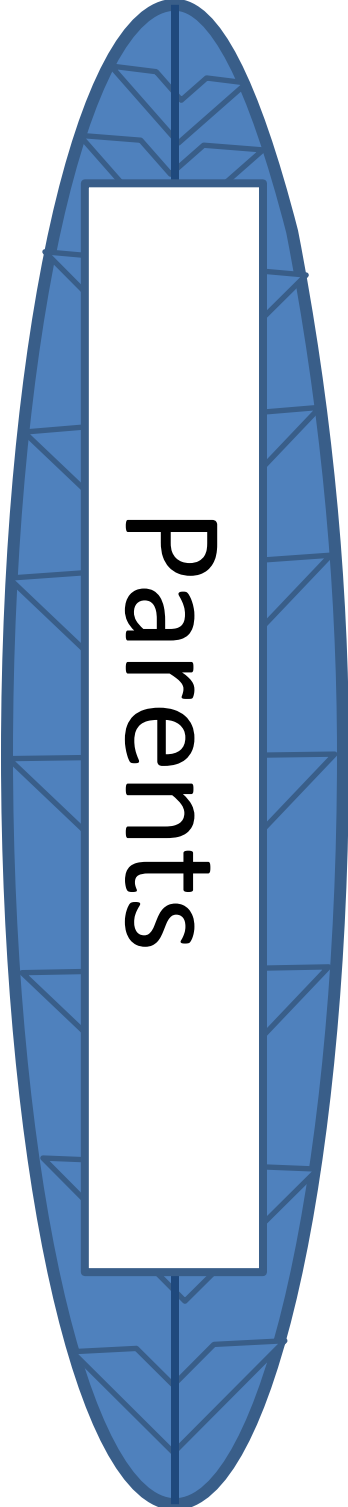

- Have your children share why they are thankful for each of the areas shared on the feathers.
- Then have them take turns clipping the feathers to the turkey.
